

The Movement of Progressives and Moderates is a political and social project which is open to those persons of good will, who have one particular aspiration at heart – which is, that of seeing the Maltese Islands become amongst the best countries to live in, in Europe. This is what unites us as a movement, it is not the political colour or the family we were brought up in.... but precisely this aspiration... this ambition... that we see these islands transformed into one of the best countries to live in, in Europe. If you do also share this ambition keep in touch with us via the website www.progress.org.mt the email address contact@progress.org.mt or alternatively via the cell phone number + 356 999 777 78.
